Applicants should submit the required information, meet the minimum requirements for registration as specified by the Board and, if required, successfully complete the Board Examination for foreign qualified medical practitioners/specialists before registration.

Verification of credentials forms part of the predetermined requirements for registration. The Medical and Dental Professions Board recognises a verification report issued by the Education Commission for Foreign Medical Graduates (ECFMG) for applicants wishing to register as foreign qualified medical practitioners/medical specialists or any other verification process approved by the board from time to time.
