

Nominating and appointing new members

The process of nominating and appointing new members to serve on Professional Boards is still underway and it is unclear when this will be completed. The term of office for the current membership of Professional Boards ended on 09 May 2009. The Health Professions Act as amended in 2007 makes provision that current membership of Boards to continue serving as members of the Boards until such time as new membership is in place. In accordance with this provision, the HPCSA has formally requested present members of Professional Boards to continue serving in the Boards until the process of appointing new members is finalized. This will ensure that the functions and activities Boards continue.
