HPCSA RADIOGRAPHY AND CLINICAL TECHNOLOGY ROADSHOW IN KZN

23 November 2023

For immediate release

Pretoria – The Professional Board for Radiography and Clinical Technology (RCT), operating under the ambit of the Health Professions Council of South Africa (HPCSA), is hosting a stakeholder engagement roadshow for registered healthcare practitioners in KwaZulu-Natal. The event is scheduled to take place at the Southern Sun Elangeni Hotel in Durban on Saturday, 25 November 2023.

Dr Chevon Clark, the Chairperson of the board, encourages practitioners to attend the event as this engagement will provide stakeholders with valuable insights into board-related matters, its activities, and the latest developments in the profession. Furthermore, the roadshow is accredited, and Continuing Education Units (CEUs) will be awarded.

“The session will address various crucial issues affecting practitioners and the profession. These include Complaints Handling and Investigation (CHI), the role of the Inspectorate Office, Continuing Professional Development (CPD), and Informed Patient Consent. We will also focus on persons-centered care and on laying the foundations for Quality Improvement in Healthcare”, Dr Clark added.

Stakeholder engagement activities play a pivotal role in strengthening the relationship between practitioners and the board. These activities offer a suitable platform for enhancing a two-way communication among stakeholders. This facilitates the clear definition of guidelines, legislative frameworks, as well as roles and responsibilities for all parties involved.

Practitioners are encouraged to take this opportunity and attend the stakeholder engagement.

About the Health Professions Council of South Africa (HPCSA)

The Health Professions Council of South Africa (HPCSA) also known as Council is a statutory body established under the Health Professions Act, 56 of 1974. The HPCSA is committed to protecting the public and guiding the professions. The mission of the HPCSA is quality and equitable healthcare for all.

The HPCSA is mandated to regulate the health professions in the country in aspects of education, training and registration, professional conduct, and ethical behaviour, ensuring Continuing Professional Development (CPD), and fostering compliance with healthcare standards.

To safeguard the public and guide the professions, registration in terms of the Act is a prerequisite for practising any of the health professions registrable with Council.
