5.PART 5 – TERMS OF REFERENCE (SPECIFICATION)

5.1 Background

5.2 The Health Professions Council of South Africa (HPCSA) is a statutory body established under the Health Professions Act 56 of 1974 and is mandated to regulate the health professions in the Republic of South Africa and functions through 12 Professional Boards operating under its auspices. The Professional Boards control the professions falling within their ambit under the overarching coordination and guidance of the HPCSA and are responsible for:

- a. Setting standards for the Education, training and registration and practice of all health professions registered under the Act;
- b. Fostering compliance with the standards set;
- c. Ensure ongoing continuing professional development by practitioners; and
- d. Investigate complaints lodged against practitioners registered under the Act.

5.3 Current HPCSA Landscape

5.3.1 Current Website

HPCSA website is accessible via this address: www.hpcsa.co.za. This HPCSA website is outdated and not user friendly and difficult to navigate through all the information.

The Website is managed by internal HPCSA resources supported by an external website contractor, who maintains, host the website and provides technical advice regarding updates or improvement to the Content Management System and hosting.

The current content management website is based on ASP.NET core MVC customizable bootstrap template with Ms SQL database, hosted on windows server platform.

- a. Windows Server 2016
- b. MVC 5.2.3
- c. MS SQL 2016
- d. ASP.NET 4.7.2

5.3.2 Why do we need a new website?

There are various reasons why we have decided to create a new website, but these are the most important:

- a. Mobile responsive & view orientation
- b. Meet internal demands: Ensure we meet corporate objectives balanced with the needs of stakeholder user groups. This includes being able to present content in an engaging and organised way on the website.
- c. Improve user experience: Serve a diverse range of audiences so that they can quickly find what they need and explore other content on a site that reinforces HPCSA's strategic positioning and value to the world.
- d. Maintain security and improve reliability: The current site is overextended technically, causing complications as well as security and reliability issues.

HPCSA Website Audiences

- a. Health Practitioners
- b. Members of the Public
- c. HPCSA Council, Professional Boards and Committee members
- d. Higher Education Institutions
- e. Health Professional Associations
- f. Government Department
- g. And other interested parties and stakeholders

5.4 Scope of Work

The contractor will need to provide and manage the end-to-end development, hosting and maintenance of the mobile responsive website, including (but not limited to) the following items:

Functionality

- a. Development of the mobile responsive website based on HPCSA's requirements.
- b. Incorporate HPCSA portal links on the website.
- c. Improved user experience (UX)
- d. Adherence to web content accessibility guidelines 2.0 & 2.1 to increase accessibility to wider groups including people with disabilities, e.g, visually impaired
- e. Analytics
- f. Social network integration
- g. Creation, testing and deployment of the automated migration of relevant content.
- h. Testing and deployment of the website
- i. External secure hosting (99.999% uptime)
- j. Configuration and hosting setup
- k. Ongoing hosting, monitoring and fine-tuning
- l. Annual penetration test conducted
- m. Issue ssl certificate
- n. cookies

- o. Training of Administrators & webmaster
- p. Training of internal users.

5.4.1 Functionality requirements

The following requirements should be read in conjunction with annexure F.

General Requirements

- a. Website to be informative, interactive, user-friendly and eye-catching, as well as attractive and professional, and must clearly communicate the objectives of HPCSA as well as highlighting projects, events, quarterly newsletters, subscribe to newsletter.
- b. A photo slideshow on the home page, with ability to change out photos as needed and the ability to add countdown clock
- c. Photo header on other sections of the webpage with ability to have different photos for each section/department and the ability change out photos as desired.
- d. Ability to embed photographs of HPCSA facilities and events in the site.
- e. Integration of audio and video
- f. Standard website features while maintaining a unique and consistent look
- g. Easy maintenance by HPCSA staff, including making programmable changes internally without having to contact service provider
- h. Ability to plug in future technologies.
- i. Enable easy access to HPCSA Portals
- j. Search engine and web crawler optimized
- k. Detailed analytics reporting
- l. Multiple redundant backups for transparent downtime recovery
- m. Fully functional, both viewing and editing, with the major browsers and operating systems on personal computers and mobile devices.
- n. Website built using web standard coding that is platform and browser independent.
- o. HPCSA will own the website code
- p. Redesign and update website, using the existing content and new content but with a revised and updated look and feel and new functionality.
- q. Website to be secure and scalable.
- r. Website to be fully searchable using the world's top search engines.
- s. Website structure that is modern, usable, accessible and intuitive for users as well as easy to update
- t. Edit existing content as well as create new content that advances the vision of the website and HPCSA.
- u. HPCSA to provide logos, Corporate identity manual, HPCSA photographs and content.
- v. Provide new graphics design

5.4.2 Development Objectives

HPCSA would like to create a customer-focused website using intuitive navigation controls that will allow for easy access to information by site visitors. The redesign should utilise the latest technology that is mobile responsive.

Balance Regulator Look and Feel with Unique Web Presence – Regulator sites are informative in nature and should clearly portray that purpose on this website. The site should also portray a unique web presence that is attractive as well as functional to fulfil the model of online regulator services. The vendor will be expected to work with HPCSA staff to develop the “look and feel” of the site to convey the HPCSA’s unique brand. This shall include a cohesive graphic design incorporating the HPCSA’s brand, colours, logo, culture, etc.

Content Management System - The bidder shall provide a comprehensive, widely used, CMS solution as an option of the proposal. The CMS software proposed should not be a beta, release candidate, other early adopter technology or easily susceptible to hacking. The CMS shall be accessible via external access. The service provider will provide a search engine solution to support indexing of all contents within the CMS.

Calendar/Event Program – HPCSA is looking for a flexible calendar program. Desired features include the ability to view the calendar in either day or month format. In addition, the ability to add to specific days hyperlinked events that can lead to either a web page or a document (such as PDF) is required. It is preferable that the calendar maintain the look and feel of the new website but retain the standard calendar look.

Online Newsroom - Ability to post news to a page or pages on the site. News should have the ability to be automatically archived in an easily retrievable manner at a predefined time after publishing and scheduled to be published at a future date and time. News headlines should have the option to be displayed on the homepage in an order defined by administrators.

Audio and video embedding - Ability to embed audio and video in website pages.

Integrated RSS Feeds - Integration with social networking applications so users can share HPCSA information with their social media contacts. The ability to integrate with future social media tools should also be provided.

- a. RSS Feed Reader: Ability for staff to set up feed readers for important HPCSA information.
- b. RSS Feeds: Ability for users to sign up to receive RSS feeds

Browser/Device Compatibility - Responsive site design. Any new website design for this project should be easily viewable from a desktop, tablet or mobile device of any manufacture. The user experience should be similar across all devices, allowing for differences in device layouts or requirements.

Fully functional, both viewing and editing, with the major browsers and operating systems on personal computers and mobile devices. Ensure implementation is functional with the current versions and one version back of all browsers and operating systems.

Website Analytics – Analytics tracking and reporting must be integrated on the site to allow for website visitor tracking, page tracking, etc.

Search Engine Accessibility - Search engine optimization (SEO) and site search functionality. The site should provide for search engine optimization to allow the highest possible ranking of the individual pages within the site from all major search providers, including but not limited to Bing, Google, MSN Search and Yahoo!

- a. The site should be accessible by spiders for the purpose of indexing the site.
- b. The site should be structured in a manner that spiders can crawl easily.
- c. The site should provide meta-title and meta-description tags that can be maintained by HPCSA staff.
- d. The site should provide robust and prominent smart search functionality allowing users to type in a word or phrase to find information on the site.
- e. The search feature should provide results for a single word, combination of words, or the exact phrase searching using quotation marks.
- f. The search feature should auto correct and/or provide results that best match misspelled words or phrases.
- g. The search feature should enable search of both HTML pages and documents, such as PDF files.
- h. Results will be returned in order of relevance based on the frequency of the search words in the page content or metadata, and results can be browsed by category.
- i. Users should be able to browse search results within different content types, such as documents, event calendar and news.

Data Migration - Data and file migration from existing site and integration into new site: Understanding that this RFP provides the HPCSA with the opportunity to restructure and update its content, HPCSA has a significant investment in the existing content and files. Proposals should include the necessary process for migrating the data and files from the existing site into any new or upgraded CMS. This includes indexing and integrating existing content into the new design and navigation structure.

Knowledge Transfer and Skills Training - The newly designed website will bring new technologies to the HPCSA and new ways to use existing technologies. HPCSA expects the service provider to work closely with the HPCSA's key staff members to answer questions and give demonstrations on the new site features. Describe how your company will provide initial training for the HPCSA's appointed content users. In addition, describe how you will provide on-going support by job title, including project management, development, help desk support and training as separate items. Preference will be given to bidders who provide support as an unlimited part of ongoing services, within reason, rather than a pay-per-use system that discourages customer questions and interaction.

5.5 Duration of contract

The Service Provider would be required to enter into a support and hosting service level agreement for a period of three (3) years

6.PART 6 - EVALUATION PROCESS

This tender will be evaluated in accordance with the Preferential Procurement Regulations. The HPCSA will use a staged approach to evaluate the bids. The requirements of any given stage must be complied with prior to progression to the next stage. The HPCSA reserves the right to disqualify bidders without requesting any outstanding document/information.

The stages are outlined in the diagram below and further detailed in the paragraphs that follow.

6.1 Stage 1: Administrative Evaluation

- During this stage of the evaluation the bidders will be evaluated on whether they comply with the following:
 - a. Complied with all the conditions of tender; and
