7. Access to records & Procedure for requesting access to information

Records held by the public body may be accessed on request only once the requirements for request for access have been met. A requester in terms of the Act means: (i) any person making a request for access to a record of that public body; or a person acting on behalf of the person referred to in subparagraph (i). The Act distinguishes between two types of requesters:

(a) Personal Requester

A personal requester is a requester who is seeking access to a record containing personal information about the requester. Subject to the provisions of the Act and applicable law, HPCSA will provide the requested information, or give access to any record regarding the requester's personal information. The prescribed fee for reproduction of the information requested will be charged as prescribed in the Act.

(b) Other Requester

This requester (other than a personal requester) is entitled to request access to information pertaining to third parties. However, the HPCSA is not obliged to grant access prior to the requester fulfilling the requirements for access in terms of the Act and any other applicable law. The prescribed fee for reproduction of the information requested will be charged.
Procedure:

A requester must comply with all the procedural requirements contained in the Act relating to a request for access to a record. To request information, attached Form A must be completed and sent to the Information Officer of the HPCSA or his Deputy at the postal or physical address, fax number or electronic mail address stated above. The record requested will be furnished on payment of the prescribed fee, in instances where request for information fees are levied, and a proof of deposit may be requested from the requester in respect of the access fee. The prescribed form must be filled in with enough particularity to at least enable the information officer to identify:

- The record or records requested;
- The identity of the requester;
- What form of access is required; and
- The postal, electronic mail address or fax number of the requester.

A requester must state that he or she requires the information in order to exercise or protect a right, and clearly state what the nature of the right to be exercised or protected is. The requester must also provide an explanation as to why the requested record is required to exercise or protect that right.

The HPCSA will process a request within the required time as prescribed in the Act, unless the requestor has stated special reasons which would satisfy the Information Officer or his Deputy that circumstances dictate that this time period not be complied with.

The requester shall be informed in writing whether access has been granted or denied. If, in addition, the requester requires the reasons for the decision in any other manner, he or she must state in writing the manner and the particulars required.

If a request is made on behalf of another person, the requester must then submit proof of the capacity in which the requester is making the request to the satisfaction of the Information Officer or his Deputy.
If an individual is unable to complete the prescribed form because of illiteracy or disability, such a person may make the request orally to the Information Officer or his Deputy and/or should a requester require the assistance of the Information officer or his Deputy in obtaining any record held by the HPCSA, such assistance will be provided by the Information Officer or his Deputy.

Upon receipt of the request, where applicable, the Information Officer will inform any third party affected by the request within 21 days of receipt of the request. The third party must inform the Information Officer why such information should not be made available to the requester within a specified period of time.

Decision:

The HPCSA shall, within 30 days of receipt of a request, decide whether to grant or decline a request and give notice with reasons (if required) to that effect. The 30-day period within which HPCSA has to decide whether to grant or refuse a request, may be extended for a further period of not more than 30 days if the request is for a large quantity of information, or the request requires a search for information held at another office of HPCSA (other than the head office) and the information cannot reasonably be obtained within the original 30-day period. The Information Officer shall notify the requester in writing should an extension be necessary.

8. Fees

The Act provides for two types of fees:

- a request fee, which will be a standard fee, and an
- access fee, which must be calculated by considering reproduction costs, search and preparation time and cost, as well as postal costs where applicable.

When a request is received by the Information Officer, the Information Officer or his Deputy shall by notice require the requester, other than a personal requester, to pay the prescribed request fee (if any), before further processing of the request. If a search for the record is necessary and the preparation of the record for disclosure, including arrangement to make it available in the
requested form, requires more than the hours prescribed in the regulations for this purpose, the Information Officer or his Deputy shall notify the requester to pay as a deposit the prescribed portion (being not more than one third) of the access fee which would be payable if the request is granted.

The Information Officer or his Deputy shall withhold a record until the requester has paid the fee or fees as indicated. A requester whose request for access to a record has been granted, must pay an access fee for reproduction and for search and preparation, and for any time reasonably required in excess of the prescribed hours to search for and prepare the record for disclosure including making arrangements to make it available in the requested form. If a deposit has been paid in respect of a request for access, which is refused, then the Information Officer shall repay the deposit to the requester.
