*Reference should be made to the **latest fees payable as published.***
  - Fee payable to write theory examination

- Fee payable for skills assessment. It includes the use of all necessary equipment as well as instrumentation and drugs where necessary.
  - Re-application fee as above (should the second attempt not be successful).
  - Additional fees (e.g. for remarking) will be charged on a cost recovery basis, per paper.
- 8.3. An Examiner will be allocated (as appointed by the Board) upon receipt of the recommendation from the Board, that the applicant be granted admission to sit for Board examination.
  - 8.4. The Board Examination logistical arrangements (dates, venue, etc.) will be communicated with the candidate (applicant) through the Education and Training Division. The applicant will be provided with the details of the appointed examiner as well as the examination guide
  - 8.5. The main Examiner will arrange for the appointment of a Moderator and conduct the Board Examination.
  - 8.6. The main Examiner together with the Moderator will complete the **EXAMINATION REPORT** detailing the outcome of the examination and then forward the report to the Education and Training Division for further processing.
  - 8.7. Upon receipt of the Examination Report, the Education and Training Division will inform the applicant in writing about the outcome of the examination.
  - 8.8. A successful candidate will be recommended for registration in the relevant category as per examination report.

## 9. COMPETENCIES REQUIRED

*Reference may be made to the relevant Profession's outcomes competency document (Optometry or Dispensing Optician).*

- 9.1. Outcomes competencies (as required for local training i.e. South African) for the relevant Profession will be provided to the candidate/ applicant. Both knowledge and skills will be assessed in the form of theory and practical/ clinical assessments. Skills will be assessed once competency in knowledge has been proven.
- 9.2. An exception will be considered in cases where knowledge is relevant and current (has been active in the past five years) and evidence can be provided to support this. In this instance, the candidate may only be required to prove competency in the skills assessment.

## **10. THE STRUCTURE OF BOARD EXAMINATIONS**

### **10.1. OPTOMETRY**

#### **10.1.1. Theory section:**

Two three-hour papers will be written and will cover all areas contained in the outcomes to practice the Profession. The first paper will include 120 multiple choice questions. The second may include multiple choice as well as a number of short answer questions in order to probe application and understanding relevant to patient care setting.

#### **10.1.2. Practical/ Clinical section:**

Areas of assessment will include the required skills such as patient examination and management in general and more specific categories. These would include contact lenses, paediatric and binocular vision assessments as well as low vision and pathology. Diagnostic techniques and therapeutic skills including interpretation of the results will be assessed.

### **10.2. DISPENSING OPTICIANRY**

Areas of assessment will include the required knowledge and skills of the profession of opticianry.

There are four main sections of the Board examination. The sections are aligned to the scope and outcomes for the required profession, these include;

Section 1 - Ophthalmic lens analysis and vertometry

Section 2 - Prescription analysis

Section 3 - Frame materials, lens materials, tints and coatings (transmission curves), frame adjustment and frame repair

Section 4 - Spectacle dispensing

***Candidates will be allowed two (2) attempts to successfully complete the Board examination. Further attempts if considered, will incur additional costs.***

## **11. SITES FOR BOARD EXAMINATIONS**

11.1. A number of examination sites to undertake theory section are available and are linked to academic training centers. Systems to support online theory examinations are still in the developmental stage.

11.2. Sites for practical examination will be conducted at the accredited sites linked to the appointed board examiners.

11.3. These sites will be confirmed during the application process.

## **12. THE APPEAL PROCESS**

- 12.1. A candidate may appeal against the results after there has been consultations, remarking (where applicable) and/or review of the clinical evaluation has taken place.
- 12.2. The Candidate should submit the motivation (Appeal form) to the Deputy Company Secretary within 5 working days after the decision / marks are made available, who will forward to the Education and Training Division for processing.
- 12.3. The Education and Training Division will upon receiving the relevant documentation from the candidate and examiners, review the results and make recommendations to the Board.
- 12.4. If the appeal is successful, the Board will communicate the outcome with the candidate and provide a new date for the candidate to sit for special examination.
- 12.5. The Board through the Education and Training Division may seek assistance to facilitate the special examination from University experts where required, but the board must be satisfied that such experts have no conflict of interest in relation to the matter under consideration.
- 12.6. Upon receipt of the special Examination Report, the Education and Training Division will provide the Board with the findings after which the final decision communicated to the candidate in writing regarding the outcome of the examination.

**Should the practitioner still not agree with the outcome of the appeal, he or she may appeal through Section 20 of the Health Professions Act “Right to Appeal”.**
