

HEALTH PROFESSIONS ACT 56 OF 1974

RULES FOR THE REGISTRATION OF RADIATION TECHNOLOGISTS

Published under Board Notice 39 in *Government Gazette* 10847 of 31 July 1987 and amended by:

BN 92

GG 13422

26/7/91

The South African Medical and Dental Council hereby makes the following rules in terms of [section 32](#)(1) of the Medical, Dental and Supplementary Health Service Professions Act, 1974 (Act 56 of 1974):

1. The council may register as a radiation technologist any person who has obtained a qualification in radio laboratory technology granted after examination by any institution or examining authority approved by resolution of the council from time to time as competent to grant such qualification: Provided that no qualification shall be accepted for the purposes of this rule unless the training therefor has extended over a minimum period of four years in a laboratory or other institution approved by the council.
2. Where, in the case of an application for registration, the qualification on which the application is based has not already been approved by the council, the applicant shall be required to cause the council to be furnished with authoritative information as to the training required for such qualification, whereupon, if the standard of such training is considered satisfactory by the council, such qualification may be approved.

[These regulations have been amended by BN 92/91 by the substitution of the words "radiation technologist" for the words "radio laboratory technician" wherever they occur]
